declined under heavy selling of long property.

The pressure to unload has been general and con-

tinued steady throughout the day. Wall street

has been the leading seller of wheat, their action

being attributed to a report that the wheat re-

cently snipped from this market to New York was

arriving cut of condition and unsalable. This is

true to some extent. Wheat arriving there is

more or less smutty, but is unsalable, not on that

account, but because the demand for spring wheat is limited, New York being a winter wheat mar-

ket. The present weakness may carry the market

still lower, but we think a reaction in order and probable. Corn and oats are weak, but the bulls are sustaining values. Receipts are large and the

bears are confident that the increasing receipts

will favor lower values. Provisions are weak and

Prime Mercantile Paper-105 per cent.

Foreign Exchange-Unchanged. The total sales of stocks to-day were 87,078 shares, including Delaware, Lackawanna and Western, 13,020; Northwestern, 11,050; New York Centra!, 11,545; St. Paul, 12,315; Texas Pacific, 5,130 Union Pacific, 9,950; Western Union, 7,520.

In the Covernment bond market the S per cants were streng and showed a slight advance on a moderate business. Others dull and unchanged.

There were no sales of State bonds. There continues to be a good business demand in Railway bonds, and prices this evening are in a majority of cases a shade higher than yesterday. The changes are, however, only for small fractions. The feature of the market was very large arading in Erie seconds consols, accompanied by a further decline in prices. The sales of these bonds, during the forenoon alone, were over \$1,000,000, and for the day \$1,799,006, during which the price fell to 47 and closed at 47%, a decline from yesterday of 1%. The general impression is that there have been some heavy sales of these bonds during the past two or three days by old investment holders. The total sales were 2,749,500. Day by day the stock market continues to grow duller and more lifeless. Today's total sales were only 87,000 shares, and id no single stock did the transactions exceed 13,000 shares. The market was absolutely featureless all day. At the opening there was a decline of a small fraction, which was soon checked and then the market became dull and steady, and so continued throughout the remainder of the day.

The listless character of the market is indicated by the statement that the extreme fluctuations were in most cases only from 1/4 to 1/2 per cent. The market finally closed steady at 1/4 to 1/2 below the closing prices yesterday, the average losses being a snade greater than yes enday's gains. It is estimated by the friends of the Pacific Mail that the earnings for the present year, will be about 10 per cent, on the stock. The friends of the Union Pacific are claiming to day, that the surplus earnings of that company for the present year will amount to \$4,000,000, and that the company will be able to pay off the floating debt by the 1st of January next, without resorting to the sale of any more bonds, thus intimating that the scheme of selling enough of the bonds in the Treasury to pay the floating debt, may be abandoned. Additional to this, they estimate that the land sales will enable the company to retire during the year as much as \$2,000,000 bonds. The most active stocks were Lackawanna, St. Paul, New York Central, Northwestern, Union Pacific, West-ern Union and Texas Pacific in the order named. There has recently been considerable strength developed in Texas Pacific on increased trading, the stock selling a fraction above 11, but it closed today with a loss of 1/4. Transactions in Missouri Pacific were limited to 1,000 shares, at a gain of 1/4

The Governing Committee of the Stock Exchange to-day listed \$1,058,000 of the St. Paul, Minnespolis and Manitoba Railway Company's consolidated bonds, \$2,000 000 Louisville and Nashville 10 40 6s, of 1924; \$1,000,000 Manhattan Railway Company second mortgage bonds, and \$607,350 second preferred stock of the C hesapeake and Ohio Railway.

COMMERCIAL.

Jobbers in dry gooes, though not doing a rush. ing business, continue to have a little trade that in the aggregate makes a very fair volume. Groceries are fairly active and average firm. Dairy' products still continue in an unsatisfactory condition. Dried fruits, canned goods and fish are easy. Poultry are weak. Eggs unchanged.

We quote the following from the Board of Trade

Wheat-Local markets remain dull at ruling prices, and with only a fair demand for cash offerings. Futures show some slight inquiry, but buyers and sellers are too wide apart to suggest trading. Eastern markets exhibit a marked decline, New York going off 1c, Baltimore 14 9 1/4c, and Chicago following in the same line-1%c below Tuesday's prices.

Corn-Rules lower in local circles, and the tone of the market is weak. Receipts light and offerings meager. Futures friendless, New York at noon was Me off, Baltimore ruled as steady and Chicago %e lower.

Oats-Dull, weak and lower. The following table shows the receipts of grain at this point for the past twenty-four hours:

Produce Markets.

CHICAGO, May 27 .- The bears were in high feather on 'Change to-day. Their predictions of a 13%@13%c. Cheese-Dull; Ohio flats, choice, 7% break in wheat, owing to the large stocks in sight, finally bore fruit, and at one time during the ses sion prices were 3%c under those current two days ego. The downward movement brought great quantities of long wheat upon the market, and short selling was also rampant during the day the short interest in the cereals having been very largely increased. The crop outlook was entirely ignored for the time being, and argument of the large stocks here and at Duluth was employed as the reason for a decline. Foreign advices were of an unfavorable tenor. There is still a noticeable lack of shipping demand, and the receipts con tique free. The advance of British consols to paassisted the weakness in the markets. There was a slight reaction from the bottom, and toward the close of the asternoon board a steadier feeling prevailed. The latest trading of the May was I under yesterday. The corn market showed a greater steadiness, in comparison with wheat, alhough the feating was one of easiness. The were large, and foreign

vices unfavorable. The market opened firm, but fell back somewhat, with wheat, weakened partially and closed 1/6% uuder yesterday. The speculative trading in oats was moderate and the feeling was easier, but at | the close of trading for the day prices showed no change from the close on yesterday. Mr. S. G. Tracy has been suffering since last September, up one day and down the next, and for three weeks previous to taking your Athlophores he was unable to feed himself, and had to be moved in his bed with sheets: as it pained him to be touched. and had elept but little in the three weeks. One hour and a half after taking the first dose of Athlophoros, he was free from pain, and in two days was able to be about the house, and soon after was on the street and as well as ever. He had taken several rheumatic medicines, and was under a physician's care but without avail. OTTO L. HOFFMAN, Druggist, Columbus, O.
